

RECOMMENDED USES

- Machinery
- Heavy duty equipment
- Garage and hanger doors
- Snow blowers
- Food processing equipment
- Boat trailers
- Conveyor belt rollers

A LUBRICATING RUST INHIBITOR THAT RESISTS SPLASH AND SPRAY

ADVANTAGES

- Strong protective barrier
- Long lasting lubricant
- Creeps under rust and fills pitting corrosion
- Dielectric to 8920 volts, prevents electrolysis
- Low VOCs
- Environmentally friendly

Industrial Thick Film Spray is a self-healing lubricant that stops rust by polar bonding to metal and displacing water and oxygen.

For more than 30 years, S2S corrosion preventive coatings have been successfully protecting marine vessels and heavy equipment in the harshest environments. The Industrial Thick Film Spray is proven to prevent rust and corrosion caused by sea spray, fog and extreme weather. It is long lasting and has dielectric properties that enable it to halt electrolysis. S2S is non-toxic, non-hazardous and safe for the environment.
