

# Ship2Shore

Dielectric • Anti-Corrosion • Lubricant

Electronics • Circuit Boards • Motors • Switches • Connectors • Wires • Tools • Machinery • Equipment

## Stop Rust & Corrosion 100%

### Industrial Fluid Thin Film

Advanced Fluid Thin Film Technology

- Displaces moisture
- Adheres like a magnet to steel
- Penetrates existing rust & corrosion
- Shuts down corrosion & electrolysis
- Resists splash, spray & submersion
- High pressure lubricant
- Dielectric constant 40,000 volts

Forms a dynamic, self-healing, non-hardening and dripless film

Ultimate in moisture and corrosion protection

Approved for food processing facilities and equipment
